600
series

600 Series / 1 3/8" thick / R-13.45

Make a Statement.

The 600 Series combines the look of deep embossed wood grain with the strength and durability of heavy gauge galvanized steel for years of virtually maintenance free use without the worry of warping, cracking, or rotting. This series provides maximum energy efficiency with 1 3/8" thick, CFC free, polyurethane insulation that provides more than five times the insulating value of wood. Backed by a Limited Lifetime Warranty, the 600 Series is ideal in all climates and offers a full range of color and window options. Adding beauty and value to your home has never been so easy!

A **Full Thermal Break** is used in the tongue-and-groove construction of all 600 series doors. This rigid vinyl extrusion seals the joints and eliminates metal-to-metal contact, which limits the transfer of temperature
