### INTELLIGENT ARCHITECTURE: DESIGN DRIVEN BY C-POWER TECHNOLOGY

C-Power enabled Click-to-Conceal panels empower you to control your environment.

This state-of-the-art technology is woven into the door, offering privacy without sacrificing abundant natural light.

The result is an inviting, glare-free atmosphere that enhances well-being and reduces energy demands.

# CLICK. TRANSFORM. CONTROL.

# Setting New Performance Standards

C-Power enabled Click-to-Conceal panels feature advanced UV and IR defense, engineered to neutralize the harsh aspects of sunlight. Even in its clearest state, the glass actively reduces solar heat gain and reduces glare by blocking 99% of damaging UV rays, protecting your interiors and enhancing comfort.

From open and airy to intimate and exclusive, you can now elevate residential and commercial spaces to match your vision and the rhythm of your day.

## TWO DOORS

*The transformative capability of Click-to-Conceal technology serves a new generation of multi-functional spaces. This dynamic architectural feature offers the power of two doors in one—transforming from a clear, full-view door into a solid, opaque panel for instant privacy.*

## IN ONE

### MASTER THE LIGHT & YOUR ENVIRONMENT.

An automotive showroom can transition from bright and inviting to discreet and secure.

A homeowner can enjoy natural light while working in their garage, then conceal for privacy.

Restaurants, event venues, and community spaces can be flooded with light one moment and made intimate and private the next.

**C-POWER ENABLED CLICK-TO-CONCEAL PANELS DELIVER BOTH STYLE AND PURPOSE IN ONE SINGLE, SEAMLESS SOLUTION.**
